

## Navigate to Net Zero

Tons of talk, loads of granular guidance, tens of commitments, and hundreds of data points. Asset owner confusion is ripe! Yet implementation across main asset classes is already very well feasible and a tangible impact can be had. We will show you how to do it, using real-world examples of our work with clients. We will provide insight into the strategic decision points and operational challenges.

### **Manuel Adamini** Director, Responsible Investment (RI) Strategist Columbia Threadneedle Investments

As an internationally recognised expert in climate finance, Manuel combines deep insight into climate-related (investment) risks and opportunities with a good overview of global and European politics. He is a frequent and versatile speaker and moderator at large conferences and smaller roundtable sessions, and has contributed to numerous international and Dutch publications.
