## **Climate Transition in Focus: Constructing Fixed Income Portfolio's for the Future**

**Henrietta Pacquement**

Senior Portfolio Manager, Head of Global Fixed Income & Head of Sustainability

Climate transition investing acknowledges the urgent need to mitigate climate change and support the global shift towards a more sustainable and decarbonized future. Discover the four reasons why now is the time to consider investing in a climate transition strategy:

- Mitigate Risks & Capture Opportunities
- Future-Proof Your Investments
- Regulatory Compliance
- Long-Term Value Creation

Our speaker will discuss Allspring's approach to climate transition investing and the opportunities within global high yield fixed income sectors.

Henrietta Pacquement is a senior portfolio manager and the head of both the Global Fixed Income team and the Sustainability team at Allspring Global Investments. She joined Allspring from its predecessor firm, Wells Fargo Asset Management (WFAM). Henrietta joined WFAM as a quantitative analyst before becoming a portfolio manager and, subsequently, the Head of the European investment-grade business for the Global Fixed Income team in London. She has extensive buy-side experience in portfolio and risk management. Prior to joining WFAM, Henrietta was a quantitative analyst at Barclays Global Investors. Earlier, Henrietta worked in Paris for AXA Investment Management in a similar role. She began her investment career in 2001. Henrietta earned a master's degree in astrophysics from Cambridge University. She has earned the right to use the Chartered Financial Analyst® (CFA®) designation.
